Mayor 

Subject: Resolution Replenishing the Overall Program Expenditure Limit (OPEL) for the
Miscellaneous Construction Contracts (MCC) Program

Recommendation

It is recommended that the Board of County Commissioners (Board) authorize replenishing the Overall Program Expenditure Limit (OPEL) for the Miscellaneous Construction Contracts (MCC) Program. The Ordinance that originally created the MCC Program (Ord. No. 09-101) included the OPEL provision, which requires approval by the Board to replenish the MCC Program expenditure authority, as necessary. As the Board is aware, an Ordinance on Second Reading at the June 3, 2014 Board meeting, requesting to remove the OPEL provision, failed to receive a motion and was not approved by the Board. As a result, given the lack of remaining OPEL in the program, it is of the utmost importance to receive partial replenishment of the MCC Program.

The amount being recommended for replenishment is \$450 million, which was equal to the last Board-approved replenishment request in 2011 (R-352-11). It is important to point out that projects under the MCC Program are approved by the Board as part of the County's annual budget process. Furthermore, prior to proceeding with an MCC project, Office of Management and Budget approval is obtained for availability of funding. As such, the \$450 million is simply an allocation amount that can only be utilized if the two aforementioned criteria are met.

Scope

The scope of the MCC Program is countywide in nature.

Fiscal Impact/Funding Source

Funding for projects that utilize the MCC Program are budgeted by each department as part of the annual budget process, and Office of Management and Budget approval for funding availability is required prior to proceeding with an MCC project.

Track Record/Monitor

Miriam Singer, Assistant Director, Internal Services Department, administers and monitors the MCC Program. The Board is currently provided with, and will continue to be advised of the progress of the MCC Program through quarterly reports detailing the contracting activities including the application of program measures.

Delegation of Authority

There is no delegation of authority being requested in this item.

Background

To date, the Board has authorized two prior OPEL Resolutions (R-597-08 and R-352-11), totaling \$650 million (\$200 million and \$450 million, respectively). Of this amount, only approximately \$10 million remains available for future MCC projects, and it is expected that this amount will be exhausted in the next three months. As a result, it is necessary to replenish the OPEL for the MCC Program at this time.

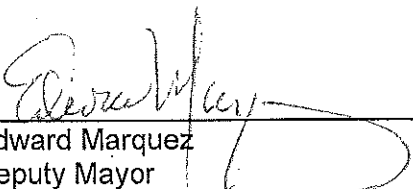

In determining the amount to be requested, a survey was conducted of capital departments to estimate likely expenditures/needs over the next three years for the MCC Program. Based on this survey, it is expected that over \$765 million in construction projects will be processed throughout the County in the MCC Program over the three-year period. However, for the purposes of this item, we are requesting a \$450 million OPEL replenishment, which should provide sufficient allocation to ensure MCC Program continuity. Attachment 1 provides a breakdown of the projected allocation amounts, by department, for the next three years.

The MCC Program process is a consistent and effective means of awarding construction work for small and large projects, including new construction, renovations, repairs and maintenance. The Program is administered using two separate Plans. The 7040 Plan is set-aside for firms certified as Community Small Business Enterprises (CSBEs), where contractors are selected on a rotational basis (depending on threshold values). The 7360 Plan is open to all vendors and is only used only when federal funding is involved or when 100 percent CSBE goal is not attainable.

Further, the MCC Program has a direct beneficial impact on all Commission districts by accelerating small construction projects, facility repairs and neighborhood improvements throughout Miami-Dade County. The MCC process provides opportunity for CSBEs to participate on County construction projects in an efficient and meaningful manner. Since 2003, when this information began being captured, there have been 7,578 contract awards, totaling \$667.5 million to CSBE firms, as compared to 551 contract awards totaling \$293.1 million to non-CSBE firms.

This recommendation reflects the County's continued commitment to developing and nurturing a competitive local construction industry in which contractors for publicly financed projects provide high-quality services, the best value to taxpayers and provide opportunities to the community's workforce programs.
